## MANAGER M'GRAW CRITICIZED FOR NOT TAKING OUT SALLEE

**"Little Napoleon" Draws Share of Criticism When He Allows Left Hand Twirler to Remain in the Box Despite Safe Blows of the White Sox; Members of Teams Keyed Up to Fighting Spirit.**

NEW YORK, Oct. 15.—McGraw and Nis Giansh, reading over a victory snatched from them when they were starting to count the winner's end of the world's series coin, rushed home early Sunday evening, telling editors do the nibb stuff for them.

Half an hour later the White Sox raced into New York, set and confident.

**Giants Very Tough.**

There is no doubt but that the efforts of the players will be repaid by the play of both in the third game in Chicago when the White Sox will be expected to win on the White Sox. The Giants were in a physical way, riding their wheelbarrow of speed and power, and the first nine innings of the first game was a physical war. The play of the Giants was about as tough and as hard as any I ever have seen in these days of hard ball.

Harro and Fletcher were interfering with every runner sleeping and the crowd was so small that it was impossible to go from first to third might as well as to go to the sixth base. The Sox retaliated by leaping at basemen with apikes in the air, and the crowd was so small that out, the ball was supplied with short arm jolt after a wrestling team.

**Assault Opposing Team.**

Of course, the Sox and the other

started it, but the rivalry quickly created feeling about it because of the character of the charges of slugging leveled by the Giants but the first chance and later, when New York's Fletcher was hit to plant when they were affected by the rallies and all gone, the White Sox went over them rough shod.

Twice fist fights were imminent, and bitter language was used, but no action resulted. The White Sox's Fletcher seemed to be very much desirous of settling someone. He declared he would have been glad to save the Giants.

As a quiet tip, if you can tell the Giants' manager how much the White Sox at their best fighting and busting—(Copyright, 1931, The Ball Syndicate)
